

Thermo Scientific Heraeus® Labofuge® 200 Centrifuge

The functional Thermo Scientific Heraeus Labofuge 200 is ideal for use in medical practices, clinical and small laboratories and as a stand-by unit in large laboratories.

Easy to use

- Accommodates a wide range of the most popular medical tubes
- Maintenance-free
- Safe

Set the required speed and the required time. With the "start" button, repeat runs can easily be recalled.

Maintenance-free

Our Heraeus Labofuge 200 is equipped with a brushless motor, so there is no need to replace carbon brushes. Besides saving time and money, this also ensures clean operating conditions.

Accessories

Made of impact resistant, fiberglass reinforced polyamide, our autoclavable rotor offers high stability and outstanding run characteristics. It is easily removed for cleaning in the laboratory washing machine. An extensive range of adapters permits centrifugation of all standard 5, 7, 10 and 15 ml tubes, including the popular "Monovette", "Vacutainer" and "VenoJect" blood collection tubes.

Safety

Our Heraeus Labofuge 200 complies with international safety standards and is equipped with a lid lock, lid interlock and a steel armoured guard ring.

Functions

The microprocessor controlled Heraeus Labofuge 200 is equipped with bright digital displays and touch-pad keys for quick and easy setting of speed and run-time. To repeat a run, simply press the start key. It is also designed with a user friendly self diagnosis system which indicates faults directly on the display.

Thermo Scientific Heraeus Labofuge 200

Specifications	Heraeus Labofuge 200 (230V version)	Heraeus Labofuge 200 (110-120V version)
Description	Microprocessor controlled table top centrifuge	Microprocessor controlled table top centrifuge
Maximum speed rpm	5300	5000
Minimum speed rpm	1600	1600
Maximum RCF x g	3030	2600
Minimum RCF x g	270	270
Maximum capacity ml	12 x 15 (glass)	12 x 15 (glass)
Controller	Microprocessor controller for time and speed	Microprocessor controller for time and speed
Drive	Brushless induction motor, microprocessor controlled	Brushless induction motor, microprocessor controlled
Runtime	1–99 min. and continuous operation (Hold)	1–99 min. and continuous operation (Hold)
Program memory	Stores values last entered, unlimited	Stores values last entered, unlimited
Safety	Lid lock and lid interlock, steel armoured guard ring	Lid lock and lid interlock, steel armoured guard ring
Design	Fiberglass reinforced polyamide housing with high noise and vibration insulation properties	Fiberglass reinforced polyamide housing with high noise and vibration insulation properties
Dimensions (HxWxD) mm/inch	240 x 284 x 375/9.5 x 11.2 x 14.8	240 x 284 x 375/9.5 x 11.2 x 14.8
Weight (incl. rotor) kg/lbs	Approx. 10.7/23.5	Approx. 10.7/23.5
Power consumption W	65	65

Ordering Information	Heraeus Labofuge 200 (230V version)	Heraeus Labofuge 200 (110-120V version)
Catalog Number	75003630	75003631

Thermo Scientific Heraeus Labofuge 200 Rotors and Accessories

HFP 5.15 Angle Rotor

Description	230 V version	110–120 V version
Catalog number	75003760	75003760
Max. speed rpm	5300	5000
Max. RCF x g	3030	2600
Max. capacity ml	12 x 15	12 x 15
Max. radius cm/inch	9.65 /3.8	9.65 /3.8
Acceleration time sec	40	40
Braking time sec	45	45

Accessories for fixed angle rotor

The adapter set (75003227) included with the centrifuge contains a complete set of adapters: 12 of each yellow, cream, and rubber distance pads.

Tube Volume (ml)	Type of Tube	Dimension (mm) Diam. Length	Tubes Per Rotor	Type of Adapter required	Adapter Order No.
7	Glass tubes (DIN)	12 100	12	yellow	75003227
15	Glass tubes (DIN)	16 100	12	⁴⁾	–
3–5	VenoJect® II (Terumo®)	13 75	12	cream + rubber pad	75003227 75003266
7	VenoJect II (Terumo)	13 100	12	yellow	75003227
9–10	VenoJect II (Terumo)	16 100	12	sleeves	75003763 ³⁾
3–5	Vacutainer® (BD™) ²⁾	13 75	12	cream + rubber pad	75003227 75003266
