

# ROTINA 35

**Hettich**  
ZENTRIFUGEN

DJB Labcare - The UK's leading Centrifuge Specialist  
info@djblabcare.co.uk 01908 612598

Benchtop  
Centrifuges,  
non-refrigerated  
and refrigerated

The high-performance benchtop centrifuges ROTINA 35 and ROTINA 35 R impress by state-of-the-art technology, large capacity, extremely easy handling and exceptionally smooth and quiet running.

Accommodating a multitude of tubes used in today's laboratory routine the ROTINA 35 type of centrifuges enable a wide range of applications.

Developed for high efficiency ROTINA 35/35 R are mainly employed in diagnostics, cell culture, genetics research and microbiology.

## Top quality is Hettich standard

### Performance

#### Large capacity

e.g. 4 x 250 ml,  
48 x 15 ml,  
10 x 50 ml (Falcon® tubes).

#### Extremely short run-up and run-down times.

#### High RCF

up to 16,233 with standard tubes,  
24,400 with microlitre tubes.

#### Efficient cooling

controllable from -20 °C to +40 °C (ROTINA 35 R).

On option, the ROTINA 35 R is also available in a heating version with temperature control from -20 °C to +90 °C and a heating/cooling version with temperature control from -20 °C to +60 °C.

3 complete running programmes can be stored and recalled.

### Technology

Smooth and quiet running

Extraordinary speed stability

Brushless maintenance-free induction drive

### Design

Ergonomically arranged controls and displays

Viewing port in the lid

A special lid locking device enables effortless closing and opening of the lid with one hand.

### Safety

Housing and lid of metal for stability

Housing finished in scratch and impact resistant powder coating

Centrifuging chamber and inner lid cover of stainless steel

Additionally steel-armoured centrifuging chamber

Easily exchangeable rotors

Automatic rotor recognition

Imbalance switch-off

Lid locking and holding during rotor run

Lid dropping protection

Emergency lid lock release

Hettich manufactures high quality centrifuges.

All stages from design to end product are continually subjected to strictest controls.

Evidence of conformity with national and international regulations such as IEC 1010-2.2 and EC standards is provided by corresponding certificates.

Of course, Hettich centrifuges are CE marked.

The ISO 9001 certificate accredited to the entire company proves the extreme care and responsibility Hettich puts into the manufacture of centrifuges and their accessories.

Therefore, Hettich centrifuges are known for safety and reliability all over the world.

**ROTINA 35 R**

benchtop centrifuge, refrigerated  
dimensions (H x W x D): 380 x 468 x 695 mm

Cat.-No. **1710**

**ROTINA 35**

benchtop centrifuge  
dimensions (H x W x D):  
380 x 468 x 540 mm

Cat.-No. **1705**

The fully developed up-to-date N control panel meets the requirements of the users and is extremely easy to operate.

Entry of the parameters is fast, precise and convenient with selector keys on the water-protected foil keypad.

The large display is well readable. During centrifugation the actual values of the parameters are indicated.

The parameters remain in the memory even after the centrifuge has been switched off.

**Speed RPM:** Input in increments of 10.

**Relative centrifugal force RCF:** Input in increments of 10.

**Change-over RPM/RCF:** By entering the rotor radius r/mm the centrifuge calculates and indicates speed or RCF.

**Running time t:** Input in minutes and seconds, max. 99 min., 59 sec.

**Run-up/run-down times:** Input of acceleration and braking ramps in levels 1 – 9 or unbraked run-down.

**Temperature T:** With refrigerated models input in increments of 1°C within a range of -20 °C to +40 °C.

**Memory:** 3 complete running programmes can be stored and recalled.

**Impulse key:** For short centrifuging operations. The rotor spins at the preselected speed or RCF as long as the key remains pressed.

 unbraked run-down

<sup>1)</sup> Lowest attainable temperature at max. speed in the refrigerated ROTINA 35 R.

<sup>2)</sup> In compliance with  
DIN EN 61010, part 2-020.

Please take care not to exceed the tubes' max. permissible RCF. For glass tubes the max. RCF is 4,000.

# Technical Details

## ROTINA 35

Benchtop centrifuge, without rotor

Cat.-No. 1705

Cat.-No. 1705-01

## ROTINA 35 R

Benchtop centrifuge, refrigerated, without rotor

Cat.-No. 1710

Cat.-No. 1710-01

* Power supply:	220-240 V 1~	110-127 V 1~	208-240 V 1~	110-127 V 1~
Frequency:	50-60 Hz	50-60 Hz	50 Hz	60 Hz
Consumption:	880 VA	760 VA	1300 VA	1500 VA
Radio interference:	EN 55011 ISM Kl. B	FCC class A	EN 55011 ISM class B	FCC class A
Immunity:	EN 50082-1	-	EN 50082-1	-
Capacity:	4 x 250 ml, swing-out rotor			
Speed/RCF:	n = 15,000 min <sup>-1</sup> / RCF 24,400			
Centrifuging chamber temperature:	controllable from -20 °C to +40 °C			
Running time:	1-99 min, ∞ (continuous run), impulse key (short cycle mode)			
Dimensions (H x W x D):	380 x 468 x 540 mm		380 x 468 x 695 mm	
Weight:	approx. 43 kg		approx. 70 kg	

\* other voltages on request

## Design

Housing and lid of metal for safety. Panelling finished in a scratch and impact resistant coating. Centrifuging chamber and inner lid of stainless steel. Lid locking, lid holding, and imbalance switch-off are standard.
