

## Laboratory Centrifuge Hire

DJB Labcare are specialists in the hire of laboratory centrifuges. We have a wide range available which crosses manufacturers, from small microlitre to large refrigerated bench centrifuges, with our extensive product knowledge we will individually tailor each centrifuge requirement around your specific needs. With a background in the service and maintenance of laboratory centrifuges, DJB Labcare has the infrastructure to cope with any issues that may be raised during a hire period.

- Our stock holding insures many types of centrifuge are immediately available to the hirer
- Variety of rotors and tube adapters available
- Microlitre to Large Bench Centrifuges
- Refrigerated and Non-Refrigerated Models
- Replacement equipment available to the hirer should the hired equipment fail during the hire period
- Technical assistance will be available to the end users throughout the hire period
- Cost is dependent on duration of hire, type of centrifuge, accessories required and location
- Equipment supplied with local plugs and to suit electrical requirements
